ANSWER SHEET

ID number

A - 2 3

Report.

Introduction:

The purpose of ~~the~~ the following report is to analyse the provided statistics on the attendance at museums and galleries and to provide recommendations on the matter of increasing the numbers of visitors.

Summary:

Based on the statistics I may conclude that there is a tendency for the number of visitors grow every year. However, also based on the statistics, a significant drop in attendance is noticed ^{able} in the museums which introduced admission charges.

Statistics:

According to the presented data, the decrease in attendance at the National History Museum and Science Museum is significant: the numbers of visitors has dropped two and three times respectively. During the same period of time ~~other~~ other presented museums experienced a substantial growth at attendance, in some cases doubling the number of visitors.

Recommendations:

In order to increase the number of visitors I propose to ~~significantly lower~~ or cancel ~~the~~ the admission charges if such exist. This ~~would~~ and draw ~~on~~ additional governmental funding instead. This would make visiting a museum ~~so~~ to appeal more to the public and therefore lead to the rise of attendance rates. In addition I recommend organising

events which would increase the interest of general public in culture and history.

Conclusion:

Based on the current tendencies, I may conclude that ~~there are~~ the attendance rates of ~~the~~ ~~various~~ museums will rise despite any changes, but there are also ways to dramatically increase the number of visitors if following the ~~above~~ aforementioned recommendations.

Report.

Introduction:

The purpose of ~~the~~ the following report is to analyse the provided statistics on the attendance at museums and galleries and to provide recommendations on the matter of increasing the numbers of visitors.

Summary:

Based on the statistics I may conclude that there is a tendency for the number of visitors ^{to} grow every year. However, also based on the statistics, a significant drop in attendance is noticed ^{at} in the museums, which introduced admission charges.

Statistics:

According to the presented data, the decrease in attendance at the National History Museum and Science Museum is significant: the numbers of visitors has dropped ^{100%} two and three times respectively. During the same period of time ~~other~~ other presented museums experienced a substantial growth at attendance, in some cases doubling the number of visitors.

Recommendations:

In order to increase the number of visitors I propose to significantly lower ~~the~~ or cancel ~~the~~ the admission charges of such exist ~~in~~ ~~the~~ ~~fact~~ instead. This would make visiting a museum ~~to~~ to appeal more to the public and therefore lead to the rise of attendance rates. In addition I recommend organising
