Report

The purpose of our research: исследование
Despite having lots of valuable information and objects, our school museum is barely ever entered. We strive to understand why this situation had occurred and we'll try to find the solution in this report.

The museum's collections:
The museum primarily shows the objects related to our school's history, it has important letters, photos of headmasters and teachers who played crucial roles at the time when our school developed rapidly. However, it also contains objects related to the history of our city during the Second World War, as our school used to be a hospital at that time.

Our explanations:
We believe that there're two main reasons why the museum isn't actively used. The first reason is that most students aren't interested in it, they think that it's just a collection of old things. The second reason is its remote location, most people don't even know that it exists.

Suggestions: As the first problem is inaccessibility, we advise to move the museum and solve the problem of the limitation of space as well. Another problem is its unpopularity, the solution is the providement of various engagements connected with the museum - excursions, quizzes, etc., as that would enhance the popularity of the museum.

Conclusion:
We managed to analyse the problems and come up with suggestions, we hope that you manage to come to the suitable output.

1) cut +
2) reduction?
3) improve
4) -
