Recently, it has been brought to our attention that the museum of our school is not as popular among the students as it could be. We have decided to analyze its state and ~~prepare~~ create this report to provide information regarding the issue.

(punc)

gr

The museum is located on the second floor of the western wing. It exhibits various rewards, which have been earned by students of our school throughout its existence, and stories related to them. The facility also stores a number of books, which contain records connected with the history of our city.

voc

voc

We are inclined to believe that the museum's low popularity is caused by the following reasons. Firstly, its location is a major limitation for its performance since it is situated far from the more often visited areas of the school grounds. What is more the descriptions of prizes and records of historical events lack engagement with the reader.

(-voc) (punc)

(-1)

gr

We would like to present our solutions to the stated problems. First of all the museum must be relocated to the first floor of the main building. Such action should rapidly increase the quantity of students willing to visit it. Also, we are certain that enhancing the descriptions of the prizes as well as outputting a single book containing complete history of the city will increase the museum's ~~efficiency~~ engagement.

(punc)

To sum up, we believe that, by changing the location of the museum and enhancing quality of its contents, the number of students willing to use it for educational purposes can be increased. ~~We hope that this report will help resolve the issue with the museum.~~
